

Constant Voltage Dimmer

Features and Benefits

V-Dim Constant Voltage Dimmer

Technical parameters

- 1-10V signal in.
- 0-100% brightness control, 256 levels;
- 1 channel input and 2 channel output.
- Voltage is 12-32V, and MAX current is 14A.
- Really a PWM dimmer for constant Voltage.
- Professional cable fixture.

Dimension

SIZE, L177*W45*H21mm

Code

20400005 **Constant voltage dimmer, 12-32V DC input,two output, 7A/CH**

20400006 **1-10V signal dimming switch**

Warranty

1 year

Application

- bar, kitchen, cellaret, bureau, cabinet etc.all the working location needs dimmer
