

Constant Voltage Repeater

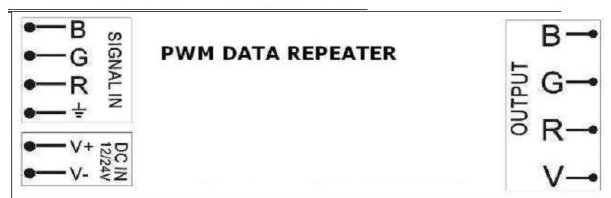

Features and Benefits

- RGB three channel output.
- Input & output isolated electrically.
- It is applicable to various of LED products.
- suitable for all PWM signal
- professional cable fix

Technical parameters

DC input voltage	DC12-24V
Input & output channel	3 channel, Max.5A per channel.
Output power	12V: 180W; 24V: 360W
Size	177*45*21MM
Weight	82g

Typical table

Code

20400013 Non-waterproof constant voltage repeater, 12/24V DC, 3 channels, Max 5A/CH

Warranty

1 year

Applications

- Building Decoration: Business spaces, airports, subway.
- Indoor Decoration: Lighting and back lighting for hospital, hotel, marketplace, square, dining-room, pub and etc..
- AD solid Word, sign and mark, signboard and billboard.
- Be used as big area back lighting source.
